## hello adventurers,

Get ready for a microliner holiday! Hit the road whenever you like. Take the next turn without knowing where it leads. Drive until dark, turn off the engine and count the stars from your bed. You can do it all – without any compromises – in your Yucon from premium manufacturer FRANKIA. Every Yucon combines the comfort of a luxury liner with the flexibility of a camper van. So let's go discover the world together!

Your **YUcon**  
BY FRANKIA

I was there  
moments

get  
out-  
doors!

It's time to turn off the navigation, take the backroads and explore the great outdoors. Your Yucon will take you places you won't find in any travel guide thanks to a high-quality Mercedes-Benz basis, rear and all-wheel drive.

*Here and now  
nights*

**let's  
go to  
town!**

Cancel all your appointments and take off on an adventure. You've never been to Rome? Or Berlin? Or Stockholm? Then it's time for a spontaneous getaway. You've already got your own four walls with you - a chic loft on wheels.

A man in a plaid shirt and dark shorts is holding a blue and green kayak vertically against the side of a dark grey van. A woman in a white tank top, blue sunglasses, and denim shorts is standing next to the van, looking towards the man. The van's side door is open, revealing a yellow interior. A green and blue baseball cap is hanging on the wall inside the van. The scene is set outdoors near a lake with trees in the background.

*Let's-do-it  
days*

**off to  
the  
lake!**

It's time to power down all the devices, spend a night at the lake and paddle in the morning sun. Your Yucon is always ready for anything and has more than enough room for all the things you love.

01

**YUCON'S MAGIC FORMULA**  
Superior motorhome comfort
